Bank Details: -

Account Name : KANAKDHARA ENTERPRISE
Account No. : 7512114324
Bank Name : KOTAK BANK PVT. LTD.
IFSC Code : KKBK0002792 (For RTGS / NEFT)
Branch Address : 101, C-1001/A, Fortune Square, Kishan Gate, GIDC Metoda, Rajkot Gujarat 360021

Dispatch: - All the Machinery will be dispatched from our side within 1 to 2 Weeks on receipt of confirmation of order and advance amount in subject to FORCE MAJEURE.

Man Power: - Around 3 to 4 persons can run and operate entire oil mill. Main Operator is IMPORTANT.

Electricity Power: - Total 35 HP / 3-Phase / 410 V / 50 Hz Connection Required.

Space Required: - Approx. 30 Feet (Length) x 50 Feet (Width) x 12~14 Feet (Height) Shed with Roofing and Flooring. Raw Material Storage also included in above. Total 1200 - 1500 Sq. Feet.

Some Conditions & Clarifications: -

- Scope of supply includes items specifically mentioned in Quotation. It does not include any other item.
- Spare Parts and items will be supplied as per availability and stock.
- Above quotation is valid for 15 Days only from the date of issue. Booking amount is non-refundable.
- The transportation shall be extra as applicable on the buyer's account on To-Pay basis.
- Oil Mill Machinery fitting has to be done by local technician. Company does not take any responsibility for timely sending of technician due to shortage of people. For Single Expeller mill consider around Rs. 25000 and for Double Expeller mill around Rs. 40000 as fitting charge. His Lodging, Boarding, etc. on buyer's account extra.
- The offered Oil Milling Plant is best and ideally suitable for producing the local edible cooking oil. This small-scale plant will give pure, natural and filtered edible oil.
- The buyer must have dedicated helpers and labors along with Operator for oil mill machinery that can handle & run the plant successfully and continuously. In order to get good production output, oil expeller and mill must run without any breaks & stoppage. Operator is very important for success.
- The quality of the input products will affect the crushing capacity as well as the output. Good quality and fresh input products will give excellent oil. Residue in oilcake is a variable parameter.

- The offered machinery is suitable for extracting oil from almost all types of different oilseeds containing more than 20% oil content in them. Output depends and varies from crop to crop and region to region.
- Any type of seed processing machine like Groundnut Decorticator, Electric Boiler etc. shall be extra.
- Dispatch will be done loose. Wooden Box or Caret Packing shall be extra.
- 3-Phase Electricity Connection, Water Arrangement, Shed, Few Labors, Technician Operator are mainly required for Oil Mill.
- Read our Fitting and Purchase Terms and Conditions for more details.
- Insurance can be taken at cost of Rs. 2500/- on buyer's approval.
- Subject to Rajkot Jurisdiction only.

Oil Extractable from 100 Kg of Good Oil Seeds will be as under.

Type of Oilseed	Oil Content	% Obtained on Expellers	% Retained in Oil Cake
Copra / Coconut	60	52	8 to 9%
Castor Seeds	50	42	8 to 9%
Sesame Seeds	50	42	8 to 9%
Groundnut / Peanut	50	38~42	8 to 9%
Mustard Seed	38	28~33	8 to 9%
Sunflower	38	31	8 to 9%
Safflower	36	27	8 to 9%
