**Sub: Quotation of Seed Grain Cleaning Grading Processing Unit,  
Capacity 1.5 TPH.**

Dear Sir,

In reference to your telephonic discussion, we are submitting here our best offer for the supply of **Seed Grain Cleaning Grading Unit**.

We are please to introduce over selves as one of the leading supplier of Seed and Rice Processing Machinery in the country. Most of the Products introduced by us save valuable man power. While ensuring highest quality Precision and reliability.

Our unit is well equipped with ultra modern fully Automatic and computerized manufacturing facilities CNC Punching Machine, CNC Bending Machine, Shearing Machines. The unit also has a fully equipped Research & Design centre with latest design software's. The Research & Design Centre has a pleasant atmosphere to work with an intention of designing world's best machines here in Western Agrotech Equipment.

We are looking forward for your valuable order.  
Your fast reply will be highly appreciated.

**Thanking You**

Sr.No.	ITEM NAME	RATE	QTY	AMOUNT
1.	<p><b>V. B Elevator (To feed Seed Pre Cleaner)</b></p> <p>Make : MS Capacity : Up to 2 TPH (Based on wheat) Discharge Ht.: as per site</p> <p><b>Self Supporting, centrifugal discharge Vertical Bucket Elevators have following standard features.</b></p> <p><b>HOPPER:</b> It is made up of 2 mm thick Stainless Steel Sheet.</p> <p><b>V-BOTTOM BOOT ASSEMBLY:</b> It is self-cleaning type. The thickness of the boot is not less than 3 mm G.I. Sheet .The pulley is mounted on a heavy-duty shaft on self aligned ball bearings. Belt tightened is provided with the help of square bar for easy sliding of take up unit.</p> <p>Two removable slide gates are provided for easy and fast cleaning and rendering service to the bottom pulley. Boot pulley is of wing/screw type to prevent damage to the seed in between belt and pulley.</p> <p><b>MIDDLE SECTION LEGS:</b> Each section of leg is made up of G.I. Sheet, not less than 1.6 mm thicknes. It is provided with flanges at both ends. Belt inspection door is provided at suitable height the first section of the leg will be 2.5m high.</p> <p><b>HEAD CASING:</b> It is made up of not less than 2.0 mm thick G.I. sheet. Detachable split cover with rubber/foam inside is provided for accessibility to head pulley. Head pulley is crowned for improved traction and is mounted on a heavy duty shaft and self aligned ball bearings. Geared motor is directly mounted on shaft for easy and quick fitting with 100% output and maintenance free operation 100% power transmit ion and maintenance free operation to reduce power consumption to achieve higher efficiency.</p>	90,000/-	01	90,000/-
